Walk leader: Michael C 07484 768289

Sun 30 January 2022

No Group walk available today – check Ramblers' Walk Finder: www.ramblers.org.uk/go-walking for alternative options

You are welcome to walk with us on a try before you buy basis. But if you choose to walk with us regularly, even if not frequently, we would ask you to join the Ramblers. Please see our website.

Finding the start of your walk

Start and meeting points include an OS Grid Reference, accurate to 100m.. See how to use grid references [here](#).

All walks frequently give a postcode for satellite navigation systems to help you find the start of the walk. On occasions, there may be two postcodes given. One is in the title of the walk and this is added automatically by the system we use. This is not always 100% accurate and you may see a second code in the walk description, provided by the walk leader. If this is the case, we suggest that you use the code provided by the leader.

More and more leaders are now giving [What3Words](#) addresses too. To use these you will have to download the W3W app onto your smartphone or computer and follow the instructions given. This is a very accurate system and particularly useful in remote areas away from habitation.

Walk Grades

- **Easy Access** - walks for everyone, including people with conventional wheelchairs and pushchairs, using easy access paths. Comfortable shoes or trainers can be worn. Assistance may be needed to push wheelchairs on some sections.

- **Easy** - walks for anyone who does not have a mobility difficulty, a specific health problem or is seriously unfit. Suitable for pushchairs if they can be lifted over occasional obstructions. Comfortable shoes or trainers can be worn.
- **Leisurely** - walks for reasonably fit people with at least a little country walking experience. May include unsurfaced rural paths. Walking boots and warm, waterproof clothing are recommended.
- **Moderate** - walks for people with country walking experience and a good level of fitness. May include some steep paths and open country, and may be at a brisk pace. Walking boots and warm, waterproof clothing are essential.
- **Strenuous** - walks for experienced country walkers with an above average fitness level. May include hills and rough country, and may be at a brisk pace. Walking boots and warm, waterproof clothing are essential. People in doubt about their fitness should contact the organiser or leader in advance.
- **Technical** - walks for experienced and very fit walkers with additional technical skills. May require scrambling and use of ropes, ice axes and crampons. You must contact the organiser or leader in advance for further details.

Notes

- Walk gradings are provided as a general guide only. If you have any doubt about your fitness for a particular walk please contact the organiser or leader in advance.
- Bear in mind the distance of the walk, regional differences in terrain and the possibility of bad weather, which can make a walk more difficult than planned.
- If you're unsure of your fitness level, try a short and easy walk first - it's much better to find a walk a little too slow and easy than to make yourself miserable and exhausted.
- Leaders may refuse to accept participants who in their opinion are inadequately equipped or unfit.

Join the Ramblers today

Not already a member then why not join today at <http://www.ramblers.org.uk>.
